Per unire più elementi è necessaria una pavimentazione perfettamente piana. Qualora gli articoli venissero assemblati su una pavimentazione non piana e/o non solida, il numero di elementi che si possono unire correttamente dipende dall'irregolarità di tale pavimentazione. *To join multiple elements, a perfectly flat flooring is required. Assembling on an unflat and/or an unsolid floor, the number of elements that can be correctly joined depends on the irregularity of that floor.*
